## THEMES & CONTENT

Fundamental Critical Care Support prepares non-intensivists to manage critically ill patients for the first 24 hours.

## GOALS

- > Prioritize assessment needs for the critically ill patient.
- > Select appropriate diagnostic tests.
- > Identify and respond to significant changes in the unstable patient.
- > Recognize and initiate management of acute life-threatening conditions.
- > Determine the need for expert consultation and/or patient transfer and prepare the practitioner for optimally accomplishing transfer.
